NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization

The Company, a Delaware Corporation, is a wholly owned subsidiary of Standard Bank Group Limited, and an affiliate of The Standard Bank of South Africa (“SBSA”) which is the main operating subsidiary of its Parent.

The Company commenced permitted broker-dealer securities activities when it became a registered broker-dealer under the Securities Exchange Act of 1934 (“Exchange Act”) and a member of the Financial Industry Regulatory Authority (“FINRA”) on June 16, 2015.

The Company was established and is authorized per its FINRA membership agreement to serve as a chaperoning broker-dealer to its non-U.S. Standard Bank Group affiliates, primarily SBSA, in accordance with specified exemptive provisions of Rule 15a-6 under the Exchange Act. In that regard, the Company mainly provides chaperoning services to its foreign associated personnel when visiting major U.S. institutional investors, and it also chaperones research reports relating to foreign securities that have been prepared by non-U.S. Standard Bank Group affiliates and distributed to major U.S. institutional investors. The Company also supports SBSA and its non-U.S. affiliates by managing the relationships of U.S. corporate clients with respect to their investment banking, transactional products and services (TPS), and global markets needs in Africa.

The Company does not hold or owe funds or securities for customers and does not carry accounts of customers. Accordingly, the Company claims exemption from Rule 15c3-3 of the Exchange Act under Section (k)(2)(i).

B. Furniture and Depreciation

Furniture is carried at cost less accumulated depreciation. Depreciation is provided on a straight line basis over its estimated useful life (seven years).

C. Securities Transactions

Since becoming a registered broker-dealer on June 16, 2015, all of the Company’s securities activities have consisted of serving in an agency capacity and chaperoning securities transactions services for non-U.S. Standard Bank Group affiliates pursuant to Rule 15a-6 under the Securities Exchange Act of 1934. Securities transactions services conducted by the Company consisted entirely of chaperoning research distribution and foreign associated persons from non-U.S. Standard Bank Group affiliates.

D. Share-based Compensation Plans

The Company accounts for share-based compensation plans of affiliates covering certain of its employees using the fair value based method. Cash-settled plans are accounted for as liabilities at fair value until settled. The liability is recognized over the vesting period and is revalued at each reporting date and on settlement. Any change in the liability is recognized in the statement of income.

E. Income Taxes

Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each year end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Income taxes expense is the taxes payable for the period and the change during the period in deferred tax assets and liabilities. Valuation allowances are used to reduce deferred tax assets to the amount considered likely to be realized.

The Company calculates its current and deferred income tax provision based upon estimates and assumptions that could differ from the actual results reflected in income tax returns filed in subsequent years. Adjustments based on filed returns are recorded when identified.

The amount of income taxes a Company pays is subject to ongoing audits by Federal, state and local taxing authorities. The Company's estimate of the potential outcome of any uncertain tax issue is subject to management's assessment of relevant risks, facts and circumstances existing at that time, pursuant to accounting principles. At December 31, 2017, the Company did not record any liabilities for uncertain tax positions.

F. Estimates

The preparation of the financial statement in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial condition. Accordingly, actual results could differ from those estimates.
